*** not allow the exclusion of warranty and liability as stated above
*** you are NOT allowed to use this software at all.

#endif

If you have some suggestions which can be feeded to this Application, please write me.
Sufficient credits (not in term of money) will be given to you.

Any problems, comments & suggestion are welcomed.

Manual:

Using the app is simple and user friendly.

Double Click the system tray icon to see your messages.

Right click the icon to change settings.

Inbox.

Compose.

sound : enable application sounds or not.

enable app : if unticked the app stopps working. (it pauses the app)

show splash : show splash at the time of launch.

run at startup : automatically run at system startup.

First Run:

Enter the proxy settings:

In iitp campus we use intranet which is set by default and requires no proxy settings.
so you need to do no changes...

If accessing from outside use the internet option (and proxy details if required). (For girl's hostel)

Enter the Domain, Username and Password.

Enter the domain i.e. the url to connect.

eg 172.16.1.11 or 172.16.1.32 etc on intranet.

ashoka.iitp.ac.in etc when using internet.
Congrats you have started using the handy IITPWebApp
Enjoy...!!
